## EXPERIENCE

### Accountant

*Titan Equipment Repair, LLC*

Feb. 2022 – Present

Charlotte, NC

- Successfully Implemented QuickBooks, a web-based accounting software, to streamline financial processes and improve overall efficiency
- Proficiently managed and tracked business expenses and customer payments, ensuring accurate recording and timely collection of revenue
- Maintained comprehensive records of shipments, providing real-time tracking and facilitating effective inventory management

### System Administrator

*Titan Equipment Repair, LLC.*

Nov. 2021 – Present

Charlotte, NC

- Designed and implemented a robust database using MySQL, enabling efficient access to critical customer information, including serial numbers, service history, next annual service dates, parts ordered, and part receipt
- Maintained and administered the database, resolving issues promptly and ensuring its optimal performance, reliability, and data integrity
- Streamlined shipment information and tracking processes by developing and implementing efficient solutions, resulting in improved accuracy and timely delivery

### Valet Lead

*Park, Inc.*

March. 2020 – Present

Charlotte, NC

- Demonstrated exceptional customer service skills while efficiently managing valet operations, ensuring smooth vehicle drop-off and retrieval, and providing excellent service to customers
- Played a key role in the implementation of a phone-based timeclock system, streamlining the check-in and check-out process for valet staff, resulting in improved timekeeping accuracy and efficiency
- Attained a defensive driving certification and consistently practiced safe driving techniques, ensuring the safety of passengers, vehicles, and pedestrians in high-traffic and fast-paced environments

### Passenger Service Assistant

*Prospect Airport Services*

July 2019 – March 2020

Charlotte, NC

- Assisted wheelchair-bound and elderly passengers, providing reliable and efficient transport to their connecting flights
- Utilized an app-based customer pickup schedule to optimize passenger assistance and ensure timely transfers
- Held FAA certification for passenger service and adhered to international flight protocols
- Collaborated with airport staff, airlines, and service providers to facilitate seamless passenger transfers
- Maintained clear and effective communication throughout the process for efficient coordination

## PROJECTS

### Database for Titan Equipment Repair | MySQL, MySQL Workbench

Nov. 2021 – Present

- Created and implemented a robust MySQL database, optimizing data storage and retrieval
- Improved functionality and user experience based on feedback and industry standards
- Conducted regular database maintenance tasks, including performance optimization and security enhancements
- Developed and implemented a comprehensive backup and disaster recovery strategy
